

# How to draw **Natalie Attired**

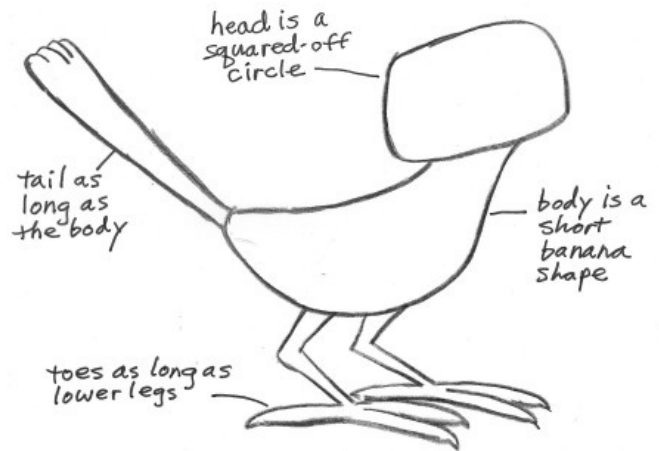

Feeling artistic? Here's how you draw the other half of Emerson Hicky's detective team.

Get a pencil, paper, and an eraser. Put on your fancy artist cap (or whatever cap you can find). Then follow these simple instructions.

*Have fun!*

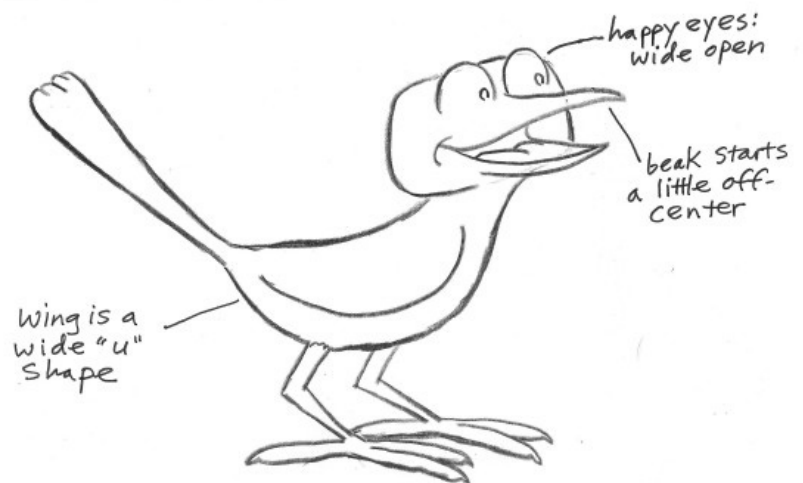

## STEP 1

Start with the basic shapes of a squared-off circle head and a body like a short, fat banana.

## STEP 2

During this step, you erase some of the lines around the head and tail base, then add the face.

## STEP 3

As you add Natalie's feathers, be sure to include some shading. Her shoulders are black, she's got a white belly, and her upper wings are white-tipped.

And now, you're done!

*Go forth and be artistic!*
